Our Formula. Your Success.

Epichem Pty Ltd achieves ISO 9001:2015 certification

Epichem Pty Ltd is proud to announce that our Quality Management System is now ISO 9001:2015 certified for the provision of synthesis and distribution of fine chemicals, reference standards, technical services and provision of contract research and consulting.

ISO 9001:2015 is based on seven quality management principles including strong customer focus, leadership, engagement of people, the process approach, continual improvement, evidence-based decision making, and relationship management. Epichem's decision to become ISO 9001:2015 certified is a proactive one that not only anticipates the demands of our customers, but also demonstrate a commitment to providing quality products and services to all current and future customers. Being ISO 9001:2015 certified means our customer can have confidence Epichem is committed to quality and outstanding customer service.

We would also like to take this opportunity to extend our sincere thanks to our customers and suppliers for their continued commitment and loyalty. Epichem will always strive to exceed high expectations. With our goals focused on the emphasis of quality assurance and innovative production, we look forward to bringing the business to new heights in the months and years to come.

About Epichem

Epichem is a wholly owned subsidiary of the ASX listed company PharmAust Limited. Located in Technology Park, Western Australia, Epichem has been delivering products and services in synthetic and medicinal chemistry to the global drug discovery and pharmaceutical industries in 35 countries worldwide for over 12 years. Epichem has a newly constructed state-of-the-art laboratory and has world class equipment and expertise in synthetic and medicinal chemistry for the cost effective synthesis of drug analogue libraries and intermediates. Epichem has considerable expertise and experience in multidisciplinary and multicentre drug discovery projects and is actively working with many clients and collaborators including the not-for-profit Drugs for Neglected Disease initiative (DNDi) as part of a consortium to find a cure for Chagas Disease. About ISO 9001:2015

ISO 9001 is the international standard that specifies requirements for a quality management system (QMS). Organizations use the standard to demonstrate the ability to consistently provide products and services that meet customer and regulatory requirements. It is the most popular standard in the ISO 9000 series and the only standard in the series to which organizations can certify. ISO 9001:2015 is based on seven quality management principles including strong customer focus, leadership, engagement of people, the process approach, continual improvement, evidence-based decision making, and relationship management. ISO 9001 helps organizations ensure their customers consistently receive high quality products and services, which in turn brings many benefits, including satisfied customers, management, and employees.

Further information about ISO 9001 Certification can be found at www.iso.org/iso/iso_9000
