# MEDICINAL CHEMISTRY

DRUG DISCOVERY SERVICES

# DRUGS BY DESIGN

## OUR EARLY-PHASE DRUG DISCOVERY EXPERTISE INCLUDES:

- Molecule design and optimisation.
- Synthesis of analogue libraries.
- Hit to lead projects.
- Lead optimisation towards candidate selection.
- Creative problem solving.
- Novel IP generation.
- Project scoping and planning.
- Project management.
- Drug discovery consultancy.
- Seamless integration into global multidisciplinary teams.

## OUR CUSTOM SYNTHESIS CAPABILITY:

- Benchmark compounds for biological assays.
- Drug conjugates, fluorescent tags and metabolites.
- Deuterated and <sup>13</sup>C labelled molecules.
- Scaffolds and intermediates.
- Method development and route planning.
- Design and synthesis of complex molecules.

## OUR BELIEFS

- Customer Commitment
- Valuing our Human Capital
- Reliability and Integrity
- Innovation
- Community and Environment
